### **Exhibitor Rules & Regulations**

### **Booth Construction**

All booth displays must be constructed so as to appear "finished" on all sides that may be visible, including from all adjoining booths. For example, if the framework structure of a pop-up booth is visible from an adjoining booth, that framework will need to be covered so as to not detract from the appearance of the adjoining booth. All exhibit displays should be designed and erected in a manner that will withstand normal contact or vibration caused by neighboring exhibitors, hall laborers or installation/dismantling equipment such as forklifts.

### **Line of Sight**

All exhibitors are entitled to a reasonable line of sight which varies by booth size and location. Generally, nothing should be over four feet (4') tall in the three feet (3') closest to the aisle. Regardless of the number of standard booths utilized, (e.g. 10'x20', 10'x30', 10'x40' etc.) display materials should be arranged in such a manner so as to not obstruct sight lines of neighboring exhibitors. The maximum height of eight feet (8') is allowed only in the rear of the booth space, with a four foot (4') height restriction imposed on all materials in the three feet closest to the aisle.

### **Standard Booth**

A standard booth consist of an area 10'x 10'x8' high. All display material over four feet (4') high, must be set back three feet (3') from the main aisle.

### **Endcap Booth**

An endcap booth is a 10'x20'x10' high booth exposed to aisles on three sides. The back wall is restricted to four feet (4') high within the three feet (3') closest to each aisle permitting adequate line of sight for the adjoining booths. The rest of the back wall can be no higher than ten feet (10'). Any portion of the back wall that extends beyond the eight foot (8') curtain must be finished (no exposed framing or structure) and may not carry any ad copy on the back side.

### **Split Endcap Booth**

A Split Endcap is a 10'x20'x10' high booth exposed to aisles on three sides and shares a common back wall with another Endcap booth. In both cases, the entire cubic content of the booth may be used. Any portion of the back wall that extends beyond the eight foot (8') curtain must be finished (no exposed framing or structure) and may not carry any ad copy.

### **Peninsula Booth**

Peninsula booths are any configuration of four or more booths exposed to aisles on three sides. Peninsula Booths are 20'x20'x16' high or larger. When a Peninsula booth backs up to two Standard Booths, the back wall is restricted to four feet (4') high within the three feet (3') closest to each aisle, in the back five feet (5') of the booth permitting adequate line of sight for the adjoining booths The rest of the back wall can be no higher than sixteen feet (16'). Any portion of the back wall that extends beyond the eight foot (8') curtain must be finished (no exposed framing or structure) and may not carry any ad copy on the back side.

### Island Booth/Split Island Booth

An Island booth is exposed to aisles on all four sides. A Split Island Booth is a Peninsula Booth which shares a common back wall with another Peninsula Booth. In both cases, the entire cubic content of the booth may be used up to sixteen feet (16'). Any portion of the back wall within five feet (5') of booth perimeter that extends beyond the eight foot (8') curtain must be finished (no exposed framing or structure) and may not carry any ad copy.

### **Balloons**

Helium balloons may be used as booth decorations if securely fastened within the height restrictions of booth type, but balloon distribution is prohibited.

### Audio-Video/Music/Loud Demonstrations

Expo management reserves the right to limit or restrict sounds from any source that interfere with activities in neighboring exhibits. In general, sounds should be no louder than 85 decibels. As a matter of safety and courtesy to others, exhibitors should conduct sales presentations and product demonstrations in a manner which assures all exhibitor personnel and attendees are within the contracted exhibit space and not encroaching on the aisle or neighboring exhibits. It is the responsibility of each exhibitor to arrange displays, product presentation and demonstration area to ensure compliance. Special caution should be taken when demonstrating machinery or equipment that has moving parts or any product that is potentially dangerous. Exhibitors should establish a minimum setback of three feet (3') and/or install hazard barriers as necessary to prevent accidental injury to spectators. Demonstrations involving sound need to be limited in frequency and are at the discretion of show management. Generally, a neighbor across the aisle should not be able to hear your demonstration.

### **Hanging Signs and Graphics**

Whether suspended from above or supported from below, they should comply with all ordinary use-of-space requirements. The highest point of any sign in any booth should not exceed the maximum allowable height for that type of booth. Hanging signs and graphics should be set back a minimum of five feet (5') from adjacent booths and aisles. Multi-sided signs, projection screens or logos may not face an adjacent booth. This will include back walls, side panels, headers and towers.

### **Floor Coverings**

All exposed floor area contained within the booth must be covered with carpet or other appropriate floor coverings.

### Variance

Height variance fee is \$100. Expo management, in its sole discretion, may make exceptions to the height restrictions for some exhibitors as it considers advisable. Any exhibitor requesting a variance must submit the request in writing along with written approval from the exhibitors affected by the variance. Please send requests to jgerman@bbiinternational.com.

Authorization To Provide Freight Services: By completing the Freight Handling Order Form, it is understood that Valley Expo & Displays and its subcontractors do not automatically insure materials, that insurance, if any, shall be arranged by the Exhibitor and the amounts payable to Valley Expo & Displays for drayage services are based on the value of the material handling services and the scope of Valley Expo & Displays liability as herein set forth. The amounts payable to Valley Expo & Displays are unrelated to the value of the Exhibitor's property being handled by Valley Expo & Displays or its subcontractor. It is impractical and extremely difficult to fix the value of each shipment handled by Valley Expo & Displays or its subcontractors. It is agreed therefore that if Valley Expo & Displays or its subcontractors should be found liable for loss or damage to Exhibitor's materials, the liability shall be limited to the specific article that was physically lost or damaged. Such liability shall be limited to a sum equal to 30 cents per pound per article, with a maximum liability of \$500 per item, or \$1,000 per shipment, whichever amount shall be less, as agreed upon damages bit as a penalty, and such agreed upon damages shall be the Exhibitors exclusive remedy. Exhibits left on exhibit floor without return instructions will be returned to our warehouse and held for disposition at an additional charge. Valley Expo & Displays will not be responsible for condition, count or content until such time as exhibits or materials are picked up for removal after the close of the exhibition.

Make certain all your material is properly insured against fire, theft and all hazards while in transit to and from your booth and for the duration of the exhibition.

> The Freight Handling Order Form must be completed and returned with payment to Valley Expo & Displays before exhibit freight will be handled!

# International Fuel Ethanol Workshop & Expo 2016

Wisconsin Center, June 20 - 22, 2016

As the official service contractor, Valley Expo & Displays is the exclusive provider of freight services. Material handling includes unloading your exhibit material, storing up to 30 days in advance at the warehouse address, delivering to the booth, the handling of empty containers to and from storage, and removing of material from the booth for reloading onto outbound carrier. It should not be confused with the cost to transport your exhibit material to and from the convention or event. You have two options for shipping your advance freight—either to the warehouse or directly to show site (if applicable).

### Shipping to the Advanced Warehouse

- We may accept freight up to 30 days prior to show move-in. Please check the Freight Handling page for specific dates.
- To ensure timely arrival of your materials at show site, freight should arrive by the deadline date listed on the Shipping Information page. Your freight will still be received after the deadline date, but additional charges will be incurred.
- The warehouse will receive shipments Monday through Friday, except holidays.
- The warehouse will accept crates, cartons, skids, trunks/cases and carpets. Loose or pad-wrapped material must be sent directly to show site.
- All shipments must have a bill of lading or delivery slip indicating the number of pieces, type of merchandise and weight.
- · Certified weight tickets must accompany all shipments.
- Warehouse freight will be delivered to the booth prior to exhibitor setup.
- Please call our Exhibitor Services Department at 877.332.4292 if you want to ship oversized material that requires special equipment to the warehouse.

### **Shipping to Show Site**

- Please refer to the Shipping Information page for the specific dates and times direct freight will be accepted.
- All shipments must have a bill of lading or delivery slip indicating the number of pieces, type of merchandise and weight.
- Certified weight tickets must accompany all shipments.

### **Prepaid or Collect Shipping Charges**

- Collect shipments will be returned to the delivery carrier.
- To ensure that your freight does not arrive collect, mark your bill of lading "prepaid".
- "Prepaid" designates that the transportation charges will be paid by the exhibitor or a third party.

### Labeling Your Freight

- The label should contain the exhibiting company name, the booth number and the name of the event.
- The specific shipping address for either the advance warehouse or show site is located on the Shipping Information page.

### **Estimating Material Handling Charges**

- Charges will be based on the weight of your shipment. Each shipment received is considered separately. The shipment weight will be rounded to the next 100 lbs. Each 100 lbs. is considered one "cwt" (one hundred weight). All shipments are subject to reweigh.
- On the Freight Handling order form, select whether the freight will arrive at the warehouse or be sent directly to show site (if applicable).
- Next, select the category that best describes your shipment. There are three categories of freight:
  - Crated: material that is skidded or is in any type of shipping container that can be unloaded at the dock with no additional handling required. Special Handling: material delivered by the carrier in such a manner that it requires additional handling, such as ground loading, stacked or constricted space, unloading, designated piece unloading, loads mixed with pad-wrapped material, loads failing to maintain shipping integrity, carpet or labor to unload. Federal Express, UPS Ground, and DHL are included in this category due to their delivery procedures. Uncrated: material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.
- Add overtime charges for inbound if material is delivered to the booth during the overtime period. This includes both warehouse and show-site shipment.
- Add overtime charges for outbound if material is loaded onto the outbound carrier during the overtime period.
- Add the late delivery charge listed on the Freight Handling order form if material is loaded onto the outbound carrier during the overtime period.
- Add the late delivery charge listed on the Freight Handling order form if the shipment is accepted at the warehouse or at show site after the deadline date.
- Shipments received without receipts or freight bills, such as UPS and Federal express, will be delivered to the booth without guarantee of piece count or condition.

### **Empty Containers**

- Pick up "Empty Labels" at the Valley Service Desk. Place a label on each container. Labeled containers will be picked up periodically and stored in a non-accessible
- At the close of the show, the empty containers will be returned to the booth in random order. Depending on the size of the show, this process may take several

### **Protecting Materials**

• Consistent with trade show industry practices, there may be a lapse of time between the delivery of your shipment(s) to your booth and your arrival. The same is true for the outbound phase of the show-time between your departure and the actual pickup of your materials. During these times, your materials will be left unattended. We recommend that you arrange for a representative to stay with your materials or that you hire security services to safeguard your materials.

### Shipping Materials After the Close of Show

- Each shipment must have freight handling services on order and a completed Bill of Lading in order to ship materials from the show. All pieces must be labeled individually. Bill of Ladings are available at the Valley Service Desk at show site.
- After materials are packed, labeled and ready to be shipped, the completed Bill of Lading must be turned in at Exhibitor Services. Do not leave this in your booth with
- Call your designated carrier with pick-up information. All pick-ups are from the show site unless otherwise indicated. Please refer to the General Information page for specific dates and times. In the event your carrier fails to show on final move-out day, your shipment will be rerouted to Valley Expo & Displays' carrier of choice at exhibitor's expense.
- For your convenience, the show-recommended carrier may be on site to handle outbound transportation.

# International Fuel Ethanol Workshop & Expo 2016

Wisconsin Center, June 20 - 22, 2016

Special handling applies to shipments that are loaded by cubic space and/or packed in such a manner as to require additional labor/handling, such as ground loading, constricted space loaded, designated piece unloading, carpet/pad only shipments or stacked shipments. Also included are shipment integrity, alternate delivery locations, mixed shipments and shipments without individual bills of lading. Shipments loaded in this manner require additional time, labor, or equipment to unload, sort and deliver.

### **Ground Loading/Unloading**

Vehicles that are not dock height, preventing the use of loading docks, such as U-hauls, flat bed trailers, double drop trailers, company vehicles with trailers that are not at dock level, etc.

### Constricted Space Loading/Unloading

Trailer loaded "high and tight" shipments that are not easily accessible. Freight is loaded to full capacity of trailer—top to bottom, side to side. One example of this is freight loaded down one side of a trailer that must be by-passed to reach target freight.

### **Designated Piece Loading/Unloading**

Drivers that require the loading crew to bring multiple pieces of the freight to the rear of the trailer to select the next piece, having to remove freight from the trailer then reload to fit the trailer that must be loaded in a sequence to ensure all items fit.

### Stacked Shipments

Shipments loaded in such a manner requiring multiple items to be removed to ground level for delivery to booth. Stacked or "cubed out" shipments, loose items placed on top of crates and/or pallets constitute special handling.

### Shipment Integrity

Shipment integrity involves shipments on a carrier that are intermingled, or delivered in such a manner that additional labor is needed to sort through and separate the various shipments on a truck for delivery to our customers.

### **Alternate Delivery Location**

Alternate Delivery Location refers to shipments that are delivered by a carrier that requires us to deliver some shipments to different levels in the same building or to other buildings in the same facility.

### **Mixed Shipments**

Mixed shipments are defined as shipments of mixed crated and uncrated goods, where the percentage of uncrated is minimal and does not warrant the full uncrated rate for the shipment, but does require special handling. Valley defines special handling for mixed loads as having less than 50% of the volume as uncrated.

### No Documentation

Shipments arrive from a small package carrier (including, among others, Federal Express, UPS Ground, Airborne Express and DHL) without an individual Bill of Lading, requiring additional time, labor and equipment to process.

### Carpet Only Shipments

Shipments that consist of carpet and/or carpet padding only require special handling because of additional labor and equipment to unload.

### Crated vs. Uncrated Shipments

Crated shipments are those that are packed in any type of shipping container that can be unloaded at the dock with no additional handling required. Such containers include crates, fiber cases, cartons, and properly stacked skids. An uncrated shipment is material that is shipped loose or pad wrapped, and/or unskidded without proper lifting bars and hooks.

IT IS IMPORTANT, THEREFORE, THAT YOU CHECK IN AT THE VALLEY EXPO & DISPLAYS SERVICE DESK TO PICK UP THE LABOR YOU HAVE ORDERED, AND TO RETURN THOSE PEOPLE TO THE SERVICE DESK UPON COMPLETION. IF YOU FAIL TO PICK UP LABOR YOU HAVE ORDERED, A ONE HOUR PER MAN NO-SHOW CHARGE WILL APPLY.

We will make every attempt to provide labor at times subsequent to 8:00 AM (or start of official set up), however such starting time must be approximate since labor is assigned to jobs at the start of the day, and it is impossible to gauge completion times of the first job assignments.

Authorization to Provide Labor Services: By completing the Event Labor Form, it is understood that Valley Expo & Displays and its subcontractors do not automatically insure materials, that insurance, if any, shall be arranged by the Exhibitor and the amounts payable to Valley Expo & Displays for labor services are based on the value of the services rendered and the scope of Valley Expo & Displays' liability as herein set forth. The amounts payable to Valley Expo & Displays are unrelated to the value of the Exhibitor's property being handled by Valley Expo & Displays or its subcontractors. It is impractical and extremely difficult to fix the value of each item handled by Valley Expo & Displays or its subcontractors. It is agreed therefore that if Valley Expo & Displays or its subcontractors should be found liable for loss or damage to Exhibitor's materials, the liability shall be limited to the specific article that was physically lost or damaged. Such liability shall be limited to a sum less than or equal to the charges for services rendered as agreed upon damages bit as a penalty, and such agreed upon damages shall be the Exhibitors exclusive remedy.

- c. If services are ordered late (ie. during the event move-in), WCD does not guarantee services will be working before the event opens; discounts will not be given.
- d. All prices are based on current wage rates and are subject to change without notice.

### 3. INSTALLATION / DISCONNECTION OF SERVICES

### 5. SERVICE GUIDELINES

### **INFORMATION TECHNOLOGY (I.T)**

Prohibited: The purchase of an IP address is for ONE DEVICE ONLY (1-IP address per device). The use of routers, switches / hubs, DHCP, wireless LANs or other applications that allow the sharing of an IP address between multiple devices is PROHIBITED unless approved by the Wisconsin Center District Information Technology Department. Individuals in violation of this policy will be subject to the DISCONNECTION of their service

### • Wireless (Wi-Fi) Internet (Limitations and vulnerabilities):

Wireless service is NOT for Mission-Critical uses and the Wisconsin Center District (WCD) cannot guarantee it will work for these uses, such as; the Registration area, Presenters and Exhibitors doing demonstrations with internet service. These services should definitely use WIRED internet connections.

Wireless service is vulnerable to interference from other devices that transmit similar radio signals. WCD cannot guarantee that interference will not occur. For this reason, if a Client would like to use any of their own Access points (AP's), router, hubs, etc. They must be pre-approved by the WCD IT Staff, at least 21 days in advance of the Event. Otherwise, they could cause conflicts in the Client's own event, other Client's events or the Convention Center's own Network. Any damage and expenses caused by this would be turned over to the Client using unauthorized equipment.

WCD has a large amount of Internet bandwidth for Wi-Fi use, but the actual maximum bandwidth available depends on how many users are using the Internet at the same time, at any given moment.

Refunds will not be given for service issues found not to be the fault of WCD (such as using Wi-Fi for Mission-Critical uses listed above or misuse of the system).

- <u>Custom Video Services</u>: If you would like to have your event videotaped, have some video edited or have other special video service needs, contact Tom Paul at 414-908-6090.
- <u>Telephone Service:</u> All telephone lines ordered will be provided with long distance dialing capabilities unless specifically noted on the order form
- NOTICE: The Wisconsin Center District is not responsible for damaged personal equipment and / or personal injury caused by the misuse of provided telecommunication and / or data service(s). Any tampering whatsoever with IT equipment (including but not limited to exhibit floor utility boxes, cabling, or rented equipment) at any time may result in the disconnection of ordered service(s) and or additional charges. The Wisconsin Center District is not responsible for personal injuries and/or equipment damage(s) that may occur as a result of this tampering.

### **ELECTRICAL**

- Special voltage and/or other specialized power requirements must be received at least thirty (30) days prior to exhibitor's scheduled arrival and move-in. Electrical Services Available: **120 volt**, A.C., 1 Phase 60 cycle, **208 volt**, A.C., 1 Phase & 3 Phase 60 cycle, and **480 volt**, A.C., 3 Phase 60 cycle.
- <u>24-hour power</u> will only be provided to those locations that have ordered and paid for 24-hour service. Otherwise, booth power will be turned on 1/2 hour prior to each day's event opening and turned off 30 minutes after closing. Only WCD house electricians are permitted to service connections and overload protection to equipment.
- <u>Electrical connections</u> Exhibitors or exhibitors' agents may plug into purchased standard outlets and connect signal wiring (i.e. antennae, audio, video, and speakers) within a booth or between the exhibitor's equipment with one booth. Only house electricians are authorized to connect and disconnect power for utilities above 120v (ie. 208v and 480v power). Under NO circumstances shall anyone other than house electricians make electrical connections to house power sources. Power requirements crossing aisles will not be installed unless approved by show management AND our Event Services Department.
- <u>Electrical Connections (Continued)...</u>Obstructions blocking utility floor boxes are subject to relocation as necessary. House electricians are authorized to cut floor coverings to permit installation of service unless otherwise directed. Standard wall, column and permanent building electrical outlets are not a part of booth space and are not to be used by exhibitors unless specified otherwise.
- <u>Prohibited usage</u> Use of open clip sockets, latex or lamp cord wire, or unapproved duplex or triplex attachment plugs in exhibits are prohibited.
- Equipment All equipment must be properly tagged or marked with complete information as to the type and/or amount of current, voltage, phase, frequency, horsepower, etc. required. 120 volt cords must be of the 3 wire, grounded type. All exposed, non-current carrying metal parts of fixed equipment, which are liable to be energized, must be grounded. Exhibitors are responsible for all their displays and equipment conforming and meeting National Electric Code and are <u>UL approved</u>. WCD reserves the right to refuse connection to any exhibitor whose equipment does not meet the National Electric, Federal, State and Local Safety codes. Special equipment requiring company engineers or technicians for assembly, servicing, preparatory work and operation may be executed without house electricians.
- NOTICE: We cannot accept responsibility for voltage fluctuation or power failure due to temporary conditions beyond our control. For your protection, we advise installing a surge protector on all your computers and other sensitive equipment. All electrical installations and connections to electrical service must be made by a house electrician. We will not be responsible for damage or loss to any equipment, components, computer hardware, software or data, or injury to any person caused by the unauthorized installation of any equipment, connection to service, or wiring of any equipment by persons other than by WCD house electricians.

### MECHANICAL

- WCD Engineers (Only): Under NO circumstances shall anyone other than WCD engineers make service connections, alter lines, install fittings, add branch connections, disconnect airlines, to the original termination in booth, etc. Exhibitors who do not conform to this request are compromising the safety of others and will be charged labor fees or equipment and material loss fees accordingly.
- <u>Fittings/regulator</u>: Exhibitors must furnish necessary fittings to connect to 1/4", 1/2" or 3/8" female (NPT) thread for water and air connections. NOTE: Pressure may vary. If pressure is critical, exhibitors are to supply their own drier, regulator and/or pump and arrange for installation. For your protection we advise that WCD Engineers install the appropriate regulators on any connection requiring critical control of pressure, moisture content, etc.
- <u>Location:</u> Services requiring crossing aisles will not be installed unless approved by show management AND our Event Services Department. Obstructions blocking utility floor boxes or other service access points are subject to relocation as necessary. House engineers are authorized to cut floor coverings to permit installation of service unless otherwise directed. Most airlines will be installed from floor ports, minimal airlines will be flown above booth (contact exhibitor services for more information).
- Equipment: All equipment must comply with all Federal, State and Local Safety Codes. Where applications require critical regulation of pressure, flow, or moisture content, the exhibitor is responsible for supplying the necessary regulator, conditioner, etc. All equipment must be properly tagged or marked with appropriate information about requirements or tolerances regarding pressure, flow, capacity, rate-of-fill, and/or other factors pertinent to safety. We reserve the right to refuse connection to any exhibitor whose equipment is deemed unsafe by an engineering supervisor. All materials and equipment furnished by WCD for this service order shall remain WCD property and shall be disconnected and removed only by house engineers at the close of the show. Tanks, drums, barrels, and other containers requiring water fill and drain exceeding 30 gallon capacity must be filled and drained by house engineers and are subject to a service charge. We reserve the right not to fill any container that shows signs of leakage or is otherwise deemed inadequate by an engineering supervisor. Containers showing signs of leakage will be drained by a house engineer without prior notice.
- NOTICE: Exhibitor assumes responsibility for any damage to Wisconsin Center District facilities caused by faulty exhibitor equipment or negligent operation of exhibitor equipment. We cannot accept responsibility for pressure fluctuations due to temporary conditions beyond our control. All installations and connections to mechanical services must be made by house engineers. We will not be responsible for damage or loss to any equipment or components, or injury to any person caused by the unauthorized installation of any equipment, connection to service, or interconnection of any equipment by persons other than house engineers. Removal of toxic waste or non-biodegradable waste is not permitted in drains. Removal of such waste is at exhibitor's expense.
- Portable air compressors and portable air tanks are not permitted.
